PROFESSIONAL SUMMARY

Data & BI Analyst with a background in Management and hands-on experience in **Power BI dashboard development**, **data modeling** (DAX, Star Schema), and **advanced SQL**. Proven track record in reconciling regional sales data, evaluating plan-fact variances, and conducting SKU-level portfolio diagnostics across high-volume datasets **(180K+ rows)** with **zero data loss**.

TECHNICAL SKILLS

- **BI & Database Tools: MS Power BI** (DAX Time Intelligence, Star Schema Modeling, Interactive Dashboards, Data Visualization Best Practices), **SQL / PostgreSQL** (SELECT, Joins, CTEs, Aggregations, Window Functions, Data Verification), **Power Query** (ETL Cleansing), Git.
- **Spreadsheets & Presentation: MS Excel** (Advanced Modeling, VBA / Automation Awareness, XLOOKUP, INDEX/MATCH, Pivot Tables, Data Reconciliation, What-If Analysis), **MS PowerPoint** (Executive Data Storytelling), **Google Sheets.**
- **Sales & Commercial Analytics:** Sales & Distribution Analytics, Plan-Fact Variance Analysis, Point of Sale (POS) Performance Tracking, Regional Market Dynamics, **Portfolio & SKU Analysis** (BCG Matrix, Margin Decomposition), SLA Monitoring.
- **Languages: English** (B2 - Upper-Intermediate / EF SET C1 Certified), **Polish** (B2/C1 - Professional), **Ukrainian** (Native).

PROJECTS

Retail Commercial & Margin Optimization Analytics | Power BI, DAX, Dynamic RLS | [GitHub Repository]

- Audited unit economics across 1,370 retail orders ($1.92M sales), pinpointing a $21.7K margin leak across 6 loss-making sub-categories (Tables operating loss -$7.24K).
- Replaced arithmetic averages with Volume-Weighted Discount % in DAX, isolating the 4.5% discount cliff where orders turn unprofitable.
- Built a Kimball Star Schema with Zero Implicit Measures and implemented territory-level Dynamic RLS using a disconnected table pattern.

Omnichannel Retail Cohort & Commercial SQL Analytics | PostgreSQL, Advanced SQL | [GitHub Repository]

- Designed a 3-table analytical data mart with defensive CHECK constraints and handled real-world data issues (NULL discounts, warranty zero-costs).
- Engineered 10 business queries using CTEs, window functions (ROW_NUMBER, LAG, DENSE_RANK), and cohort anti-joins to identify lapsed flagship buyers.
- Measured repurchase velocity (time-to-second-purchase) and calculated consumable attachment rates (razor-and-blade ratio) across sales channels.

Enterprise Supply Chain & Risk Intelligence Solution | PostgreSQL, Power BI, Star Schema | [GitHub Repository]

- Consolidated and audited multi-platform transaction records analyzing $36.5M across 180.5K+ rows with automated SQL data quality and row-count reconciliation (zero data loss).
- Modeled an enterprise Star Schema and established automated pipelines to ensure reporting data integrity across regional commercial markets.
- Delivered executive dashboards identifying SLA delivery delays and operational bottlenecks impacting customer retention and revenue.

EXPERIENCE

Commercial Operations Analyst | *Fortis Group* | *Feb 2024 – Jan 2025*

- Consolidated operational data and logs from CRM systems to ensure accurate tracking of client flows and service pipelines.
- Developed regular and ad-hoc performance reports, analyzing operational bottlenecks and exceptions to maintain 99% SLA adherence.

Operations & Reporting Coordinator | *IMBAstaff* | *May 2024 – Jan 2025*

- Maintained event logistics schedules, inventory records, and resource allocation trackers in MS Excel across **30+ corporate events.**
- Enforced strict adherence to project timelines by providing structured status reporting to avoid operational downtime.

EDUCATION

Bachelor's Degree in Management (Spec. Marketing & Sales) | *Vistula University, Warsaw*
Graduated: July 2026 | **GPA: 4.54 / 5.0** | **Thesis Grade: 5.0 / 5.0**

CERTIFICATIONS

EF SET English Certificate – C1 Advanced Level (Reading & Listening, 2026); **Excel: Beginner to Advanced** – Santander (2025)**;** **Power BI** – Santander Open Academy (2025); **SQL (Basic) & (Intermediate)** – HackerRank (2026).
